

Abdalla Essam Fouad
Frontend Developer | Giza, Egypt
01100564932 • [Email](#) • [LinkedIn](#) • [GitHub](#)

Objective

Frontend Developer skilled in React, TypeScript, Tailwind CSS, and Git/GitHub. Currently expanding my skills in Next.js and Supabase through practical projects. Enrolled in DEPI's Software Development program, seeking an opportunity to apply my skills, gain practical experience, and continue growing as a frontend developer.

Education

Cairo University | June 2024

- Bachelor of Commerce, English Section
- Major: Accounting
- GPA: 3.4

Experience

Digital Egypt Pioneers Initiative (DEPI) | React Frontend Trainee

Ministry of Communications and Information Technology (MCIT) | Jul 2026 – Present

- Developing frontend applications using HTML, CSS, JavaScript, TypeScript, React, and Bootstrap.
- Learning Git and GitHub, code quality, design patterns, and frontend best practices.
- Learning the fundamentals of Node.js and Express for backend development.
- Building responsive and user-friendly interfaces while following UX/UI principles and frontend best practices.

Projects

Course Tube | YouTube Playlist to Course Converter | [Live Demo](#) • [GitHub](#)

React • TypeScript • Tailwind CSS • Zustand • React Router • YouTube Data API v3

- Built an app that transforms YouTube playlists into structured, course-like learning experiences.
- Integrated the YouTube Data API v3 to fetch playlist and video metadata dynamically.
- Managed application state using Zustand, including playlist data, progress tracking, and UI state.
- Designed a clean, responsive UI with Tailwind CSS focused on a distraction-free learning experience.

Savora | Food Ordering App | [Live Demo](#) • [GitHub](#)

React • TypeScript • Tailwind CSS • Zustand • Strapi v5 • React Router • Axios • React Hook Form • Zod

- Built a full-stack food ordering app with a Strapi v5 CMS backend and a React frontend.
- Implemented JWT-based authentication with protected routes and persistent session handling.
- Structured API calls using a dedicated service layer with Axios and environment variables.
- Managed cart and user state globally using Zustand with a clean, modular store design.

Hoo Bank Landing Page | [Live Demo](#) • [GitHub](#)

React • Tailwind CSS • Framer Motion

- Converted a Figma design into a fully responsive React application.
- Implemented reusable UI components using Tailwind CSS.
- Added smooth UI animations using Framer Motion to enhance user experience.

Space Tourism Website | [Live Demo](#) • [GitHub](#)

HTML • CSS • JavaScript

- Developed a responsive multi-page website based on a Frontend Mentor design challenge.
- Implemented navigation and interactive elements using JavaScript.
- Focused on pixel-perfect layout and responsive design.

Courses

React – The Complete Guide (incl. Redux, Next.js)

Udemy | Maximilian Schwarzmüller

- Built practical React applications using components, props, state, Hooks, and reusable UI patterns.
- Worked with React Router, Context API, Redux Toolkit, and HTTP requests for application state and API integration.
- Learned how to handle forms, user input, authentication, and common React application patterns.
- Covered Next.js, React with TypeScript, and deployment through practical projects.

Skills

Technical Skills:

- **Frontend:** HTML • CSS • JavaScript • TypeScript • React • Tailwind CSS • Bootstrap • React Router • Redux Toolkit • Zustand
- **Tools:** Git • GitHub • Figma

Language Skills:

- Arabic: Native
- English: Intermediate

Additional Information

- **Military Service:** Completed (2026)
